### **Seabrook Discusses Safety Leadership at Safety 2009 Conference**

*Mendham, New Jersey, US (June 30, 2009)* – Kathy A. Seabrook, CMIOSH (UK), CSP (US) was one of two distinguished professionals selected by The American Society of Safety Engineers (ASSE) and Women in Safety Engineering (WISE) for the “Safety Leadership in the US, Internationally and in ASSE” panel presentation given on June 29 at the national ASSE Safety 2009 Professional Development Conference in San Antonio, Texas, US.

Seabrook, president of Global Solutions, Inc. (US) and Global Solutions International (UK), and past-ASSE president Margaret Carroll, P.E., CSP, of Margaret M. Carroll Company, LLC, shared their professional experiences in developing safety leadership skills and competencies in the national and international arenas at the conference, which was attended by 3,000 safety professionals from across the globe. Seabrook’s complete presentation and proceedings paper can be found on [www.globalehs.com](http://www.globalehs.com).

Leveraging her background in the private sector, international and consulting, Seabrook discussed her career development, formation of her companies in the US and UK, involvement in national consensus standards development, as well as how those entering the profession can get involved locally and rise to national prominence with in ASSE and the safety profession.

#### **About Global Solutions, Inc.**

Global Solutions Inc. was founded in 1996. Seabrook, as head of the company, has with over 25 years diverse safety and health management experience in the domestic and international arenas. She is an international speaker, management consultant, seminar/workshop presenter, leadership educator, trainer, author, facilitator and strategic planner. In addition to two terms on the ASSE Board of Directors, she has chaired several other ASSE committees and is also an active member of the British Institution of Occupational Safety and Health (IOSH) and the Canadian Society of Safety Engineering. Seabrook is also the recipient of numerous awards for her contributions to international safety.

#### **About the American Society of Safety Engineers**

Founded in 1911, the Des Plaines, IL-based ASSE is the largest and oldest professional safety organization and is committed to protecting people, property and the environment. Its more than 32,000 occupational safety, health and environmental professional members manage, supervise, research and consult on safety, health, transportation and environmental issues in all industries, government, labor and education.
